Every night in my dreams I see you, I feel you, That is how I know you go on.	Omni nocte in somnis te video, te sentio, sic novi te procedere.
Far across the distance and spaces between us You have come to show you go on.	Longissime absens a me distantia et spatio inter nos Venisti ad monstratum quod procedis.
Near, far, wherever you are, I believe that the heart does go on.	Prope, procul, ubicumque es Credo cor procedere
Once more, you open the door And you're here in my heart, And my heart will go on and on.	Iterum ostium aperis Et hic, in meo corde es Et meum cor procedet et procedet
Love can touch us one time and last for a lifetime, And never let go till we're gone.	Amor semel tangere potest et per totam vitam durare Et noli permittere id abesse donec abimus
Love was when I loved you, one true time I hold to. In my life we'll always go on.	Amor erat ubi te amabat, verum tempus quod retineo In mea vita semper procedemus
Near, far, wherever you are, I believe that the heart does go on. (why does the heart go on)	Prope, procul, ubicumque es Credo cor procedere (Cur cor procedit?)
Once more, you open the door And you're here in my heart, And my heart will go on and on.	Iterum ostium aperis Et hic, in meo corde es Et meum cor procedet et procedet
You're here, there's nothing to fear, And I know that my heart will go on.	Adest, nihil timeo Credo meum cor procedere
We'll stay forever this way. You are safe in my heart, And my heart will go on and on.	Semper manebimus hoc modo Tutus es in meo corde Et meum cor procedet et procedet
