

Come up to meet you Tell you I'm sorry You don't know how lovely you are	Ad te accessi, ut ignoscas mihi, nescis quam pulcrum es.
I had to find you Tell you I need you Tell you I set you apart	oportet me te invenire, dicere me te indigere, dicere me maxime te aestimare
Tell me your secrets And ask me your questions Oh, let's go back to the start	Dic mihi tua arcana, et dic mihi tuas quaestiones, o, ad initium redeamus.
Running in circles Coming up tails Heads on the science apart	In circulis currentes, caudas tollentes, capita adversus scientiam
Nobody said it was easy It's such a shame for us to part Nobody said it was easy No one ever said it would be this hard Oh, take me back to the start	Nemo dixit facilem esse, arduum est nobis discedere, Nemo dixit facilem esse, nemo nunquam dixit tam difficilem esse, o, ad initium rursus duc mihi.
I was just guessing The numbers and figures Pulling the puzzles apart	Tantum fingebam, numeros notasque, litteras decussatas dissolvens.
Questions of science Science and progress Do not speak as loud as my heart	scientificae quaestiones, scientiae progressique, non loquuntur tan altus quam meus cor.
Tell me you love me Come back and haunt me Oh, when I rush to the start	Dic te me amare, redde circumque o, cum ad initium curro.
Running in circles Chasing tails Coming back as we are	In circulis currentes, caudas persequendi, redentes rursus ubi sumus.
Nobody said it was easy Oh, it's such a shame for us to part Nobody said it was easy	Nemo dixit facilem esse, arduum est nobis discedere, Nemo dixit facilem esse,

No one ever said it would be so hard I'm going back to the start	nemo nunquam dixit tam difficilem esse, ad initium rursus eo.
